

Comfort Talk® Trainer Training

November 12–13, 2018
at the Gelderse Vallei Hospital, Ede, Netherlands

Only few spots still open!

Do you embrace patient comfort techniques that don't rely on drugs and want to develop a skill set to teach these techniques to other health care professionals?

We invite you to this unique opportunity to take the next step towards becoming a certified Comfort Talk Trainer and observe an institutional roll-out

This Comfort Talk® Training will...

- provide a deeper level of Comfort Talk® foundational knowledge
- define Comfort Talk® practice objectives that can translate to new learners
- discover techniques to be effective in a fast-paced Comfort Talk® environment
- devise delivery strategies for the Comfort Talk® teaching objectives
- network with other co-trainers and learn their efficient reinforcement processes

Teaching adults can be challenging. Comfort Talk® training breaks down complex subject matter into a simplified approach for maximum comprehension that keeps your audience's interest. In this program, you will learn effective adult learning and teaching styles in both a classroom setting and one-on-one interactions. Also, you may see how your own preferences can subconsciously influence your approach.

Comfort Talk® is the result of 20 years of serious research experimenting with various sedation delivery techniques with minimal (and optimally no) medication which incorporates direct feedback identifying best choice topics and sequencing.

Comfort Talk® has been proven in practice to...

- increase patient comfort and safety
- increase patient satisfaction
- improve operational efficiencies
- reduce operating costs

Trainer Training Cost: Euro 2,500

For enrollment please directly contact drevlang@ComfortTalk.com

Training Includes:

- 12 hours immersive training over 1.5 days
- Online pre-course training
- Trainer manual
- Individual video trainer assessment
- Continuing Education Units for nurses and dentists
- Breakfast and lunch

Ziekenhuis Gelderse Vallei

Ede, The Netherlands

Participants are welcome with pre-requisite on-line training with Level 1 Certification.

Only Level 2 Certified attendees qualify for Trainer credentials. Individuals who have only Level 1 Certification will receive Level 2 certification for participation in this course.

MORE INFO: <https://comforttalk.com/become-a-trainer>

OR CONTACT: <https://comforttalk.com/contact-us>

Enroll today as participation will be limited to allow an intensive experience.

Comfort Talk® Experience Levels

Levels 1 and 2 are designed for healthcare professionals and teams to learn Comfort Talk® techniques for their daily practice. Levels 3 and higher are for individuals aspiring to become certified Comfort Talk® Trainers themselves.

Level 1

The person took the online training course, completed it satisfactorily, and passed a post-test.

Level 2

The person either took Level 1 training online and a Level 2 live course, OR obtained training at their hospital (or another site) over a 16-hour training session and 4-hour engagement on the Training Support Portal.

Trainer Certification

The person...

- is Level 2 certified
- uses Comfort Talk® successfully in their medical/dental/mental health practice
- passed a 100 question knowledge test
- participated satisfactorily in a Level 3 online and live Trainer Training
- received direct coaching by experienced Comfort Talk® trainers in preparation for at least one live training session
- participated in at least one live Comfort Talk® Level 1 & 2 training as co-trainer
- developed and submitted at least six suitable Suggestion Cards for the Training Support Module
- demonstrated appropriate communication and feedback techniques in virtual-patient interactions in our Virtual Reality Comfort Talk® Training Center
- demonstrated satisfactory teaching ability and knowledge of subject matter*

* Observation of the Trainer candidate by Comfort Talk® staff during at least two live teaching sessions will be used to assess and certify the candidates' teaching ability. Grading centers on the successful application of the Trainer's Guide. Feedback from trainers, candidates, and customer end-users by questionnaire and participant-initiated communication will serve as measures of efficacy and acceptability of the Train-the-Trainer candidate and also of certified trainers.

Trainer certification requires continued demonstration of excellence in teaching and knowledge base every two years. Following the most recent skill descriptions in the Trainer Manual, a submission of at least one patient management example and one coaching segment in the Virtual Reality Center will be required.

Comfort Talk® is a registered trademark. Trainers can only provide and market Comfort Talk® Training through a formal association with Comfort Talk® either as a contractor, employee, or franchise owner. The brand stands for exceptional quality based on rigorous clinical trials. Thus all elements are tested continuously for efficacy. Strict adherence to the Trainer guidelines is hence prerequisite to maintain the Comfort Talk® affiliation.
