

Talk Of The Town

The Comfort Talk® Newsletter

Fall 2015

Comforting Words from our President

Today we are going to focus on what happens when you are a good listener, and what happens when you are not. To illustrate the latter, we have a special “sneak preview” of one of our new Train-The-Trainer videos. We shot eight videos—which marks the beginning of our formalized Train-the-Trainer

activities. We continue to work on a Level 3 Comfort Talk® online module, live training, and practice in the Virtual World.

To view the Train the Trainer video above, go to:
www.ComfortTalk.com/pages/video.distractions.html

More big news: We are rebranding the name of the company from Hypnalgescics, LLC (which few can pronounce and fewer still can spell) to Comfort Talk®. Yes, I did listen to you... finally. The rebranding will include a revamped, easier to use, mobile friendly website! Please let me know what you think. You can see it here: www.ComfortTalk.com

Based on the success of our first combined online/on-site intensive Comfort Talk® Training held in April 2015, we will offer another one of these events on Friday, October 9th, at the Harvard Cub in Boston (www.ComfortTalk.com/october-9-training). I hope to see some of you there!

Elvira Lang, MD

My Comfort Talk App

The My Comfort Talk® App provides step-by-step directions guiding you to utilize your mind's natural ability to block pain, reduce stress, and bolster your self-confidence without the use of medication. Developed for the iPad and iPhone, it is now available for take-along personal use.
