

Comfort Talk® Recognized Internationally

France

Dr. Elvira Lang-Anderson Spoke at the 20th European Burns Association Congress

Dr. Lang-Anderson sat in on the panel for Team Communications, which is gaining greater recognition of factors affecting patient outcomes. They discussed transference of emotions and how only one stressful individual can raise the tension in the whole room, resulting in poorer patient outcomes. Dr. Lang-Anderson shared techniques on how to lower tension for improved outcomes in stressful settings. It only takes one person in the room to relax to relax everyone.
